Mr. M. Mark Beiro
3008 Dewey Street
Tampa, Florida 33607

Dear Mark:

The tendonitis from which I was suffering when I last wrote you has apparently cleared up. However, the phlebitis seems to be a permanent condition and is drastically reducing my physical capabilities, although I still manage to work a long day.

ABC's docu-drama on Oswald I consider another imposition on the people and trashy.

I am always working on books but have no new ones. When I have, I will let you know.

Mark Lane folded his Citizen's Commission as soon as it was no longer needed to promote him.

The assassinations committee appears to have become a star chamberf

I don't know of any new books that I could recommend.

Thank you for your good wishes. I really appreciate them but I would really prefer when my days are so shortened not to have to take the time to answer. Please understand it is because of the heavy load of work I have undertaken and each letter I have to answer means that much time taken from the work.

I hope all is well with you.

Sincerely,

Harold Weisberg
